PROFILE

I am a Blockchain Security Researcher with 3,5 years of experience in Blockchain Security, Solidity Audits, and Tech Research. Team player with an eye for details and robust tech skills. My dream job is to build Web3 solutions to solve problems that people **do care** about.

SKILLS

- Blockchain Development (Hardhat, Foundry, Brownie, ethers.js, GitHub)
- Cloud Infrastructure Deployment (Ubuntu 22.04, TimeWeb, RegRU)
- Smart Contracts Audit & Research
- Security Testing (Echidna, Foundry)
- Zero-Knowledge Cryptography (Circom, Noir, Cairo, Groth16, Halo2)
- Financial Analysis, Data Analysis (Jupyter, Excel, Rstudio, Quarto)

EXPERIENCE

Product Owner & Analyst

Outbe Network

July 2025 - Present

Blockchain Security Researcher

Outbe Network

October 2024 - June 2025

- **Stack:** Rust, Cosmos SDK.
- **Research topics:** Stablecoins Collateralization, RWA & tokenization.
- **Responsibilities:** Stablecoin Design, Financial & Security Analysis, Stablecoin Tokenomics, ZKP, RWA Operator Design (Trust Fund).

Blockchain Security Researcher

Oxorio Company

April 2022 - September 2024

- **Stack:** Solidity, Circom, Leo, Cairo, Noir, Halo2, Growth16, PLONK, Plonky2, Foundry, Brownie, Hardhat, Echidna, Slither, Chainlink SDK.
- **Research topics:** Recursive zk-STARKs, zk-SNARKs, Liquid Staking, Eth 2.0, Algorithmic Stablecoins, CDP, Oracles, Investigation.
- **Responsibilities:** blockchain security and cryptography research, code testing and auditing, tech integration with dev and business teams.

EDUCATION

MIXBYTES AUDITOR

Mixbytes Farm - graduate program
March, 2023

BACHELOR DEGREE '25

Financial University
"Financial Risk Management"

MASTER DEGREE '27

Higher School of Economics
"Innovative Business Management"
